Insurance - Tips Page

Tip 1: Car Maintenance and Safety

Here are two tips to keep you safe while keeping your car in top shape. 1. Check your tire pressure at least once a month to make sure it's not too high or too low. If it's too low, your tires can overheat, which can lead to accidents. 2. Change your oil every 5,000, 7,000, or even 10,000 miles, based on driving conditions.

Tip 2: Insurance Discounts

Insurance companies may also offer discounts if you purchase your homeowner's and car insurance from the same company. So don't be afraid to ask for discounts as you may be eligible for more than you thought.

Tip 3: Review Your Coverage

Review your home insurance plan. Your needs - and your possessions - may very well have changed since you first took out your policy. Consider insuring valuables, such as jewelry, fine art, and heirlooms, you may have acquired since first purchasing your insurance.
